Your NHBC Warranty Explained

What is NHBC Buildmark?

Buying a home is typically the largest investment people make, and Buildmark provides warranty and insurance protection to newly built or converted homes. Cover starts from exchange of contracts and lasts up to a maximum period of 10 years after the legal completion date.

Why do I need Buildmark for my new home?

If you are buying a newly-built home, you will need cover such as Buildmark in order to secure a mortgage and release funds. Buying a property with Buildmark cover will reassure you that you will have protection if problems arise in the future.

The Consumer Code For Home Builders

What is the Consumer Code?

The Consumer Code for home builders was introduced on the 1st April 2010. It was developed by the home-building industry to make the home buying process fairer and more transparent for purchasers.

It covers the entire home buying process, from pre-contract information and reservation agreements to our after-sales Customer Care and dispute resolution.

We are registered with the NHBC, the leading home warranty and insurance provider for UK house building and recognise the Consumer Code.
